- Loss of public amenity
- Over bearing
- Visual amenity

Comments: We made aware of a small solar installation in Reach which was by the Grain Barns. We have now become aware that planning permission is being sought for a project that local villagers have not consulted on. The land proposed on the national trust was purchased by the National trust as part of a 100 year plan to return the land back to natural fenland to be enjoyed by the public. We totally object to this application as reasons stated above as a full consultation process has not been made affecting the village and public.
