

***FLEETING NATURE - Art history end of year event
at Reach Village Hall***

**on TUESDAY DECEMBER 9TH
1.20 - 3.30 p.m.**

Why do artists like Turner and Monet capture our imaginations ??

The answer lies in their obsession with the fleeting effects of nature, its transient beauty and mystery, that stirs something deep inside in so many of us !

Andy Goldsworthy make installations using elements of nature to comment on the passing of time and as such are in time claimed back by nature.

If you would like to know more, then why not join our end of year course, which concludes with a festive high tea !
